

Invite to Transition to Adulthood Project

Adopt London has set up a new group for 18-24 year old adopted adults and would like to invite you to come along. Our next meet ups are:

Thursday 18 December from 7-9pm

in the London Bridge area (full details will be provided)

Q. What is the purpose of the group?

An opportunity for you to meet with other young adopted adults in a group space where you can make new connections, access support, information and advice around adoption related topics, and discuss the experiences that matter the most to you.

Our aim is for the group to be shaped by its members and to provide a meet up space that you can all take something positive from. The group will provide opportunities for you to participate in and help plan social events and other activities throughout the year.

Q. Are the group meetings going to be online or in person?

We plan for the group to meet in person one evening at least once a month.
